JOHN JHASON REYES

HR Associate
Yek Yeu Merchandising, Inc.

Dear Mr. John Jhason Reyes:

Greetings in pursuit of academic excellence!

The Bachelor of Science in Computer Engineering curriculum includes an On-The-Job Training for the second-year students every summer semester, with a minimum of 300 hours of training.

The main objective of this course is for the students to acquire experience and hands-on skills in their respective areas of specialization. This further exposes them to actual work in the Computer engineering field. It is also a promising avenue for the students to help develop their professional careers and technical expertise.

In connection with this, I would like to recommend **Mr. Adrian C. Layson**, a **second-year** Computer Engineering student. I am confident that you will assist us in developing our students' technical know-how and practical skills. The department acknowledges the industry's significant role in accomplishing the training objectives.

Thank you for being with us in this noble undertaking.

Respectfully yours,

ENGR. MARLON JHON B. BAUTISTA

Faculty, Department of Computer Engineering

Recommending Approval:

ENGR. ROLITO L. MAHAGUAY

Chairperson, Department of Computer Engineering

Noted by:

DR. REMEDIOS G. ADO

Dean, College of Engineering
